A Strategic Alliance Redefining Quality, Efficiency and Value

LawyerLink and TechLaw Solutions have formed a strategic alliance to provide a fully-integrated, end-to-end eDiscovery solution. Through this alliance, clients benefit from a synergistic combination of TechLaw Solutions' data collection, processing, hosting and production services, LawyerLink's expert attorney reviewers and review management process, and both companies' unwavering focus on rigorous project management.

Manage Your Litigation, Not Your Vendors

With in-house law departments expected to do more with less, and law firms facing stringent budgeting commitments, now more than ever companies and their litigation counsel need to focus on managing case strategy for a successful result, not juggling vendors and consultants. Through our integrated project management model, optimized workflow, and state-of-the-art data hosting and turnkey project centers, the strategic alliance between TechLaw Solutions and LawyerLink provides an innovative solution to modern discovery challenges.

Joining Together To Provide Best-In-Class Value From Collection To Production and Beyond
